

Renting, the simple alternative

OSe Options

The Pan America Environmental OSe series is a family of API421 based stainless steel, above grade coalescing oil water separator designs that can be applied to many applications where oils, fuels and many petroleum derived products are present.

Model	Ose-16
Flow Rate:	45 GPM
Dimensions	52"L X 52"W X 43"H
Weight (empty)	980 Lbs
Weight (oper.)	3065 Lbs
Inlet outlet Dia.	3" FNPT
Sludge outlet	2"x 2
Tank MOC	304 SS

Model	Ose-36
Flow Rate:	100 GPM
Dimensions	82"L X 40"W X 65"H
Weight (empty)	1320 Lbs
Weight (oper.)	5200 Lbs
Inlet outlet Dia.	4" Flange
Sludge outlet	3"x 2
Tank MOC	304 SS

Model	Ose-64
Flow Rate:	175 GPM
Dimensions	82"L X 52"W X 77"H
Weight (empty)	1980 Lbs
Weight (oper.)	7200 Lbs
Inlet outlet Dia.	6" Flange
Sludge outlet	3"x 2
Tank MOC	304 SS

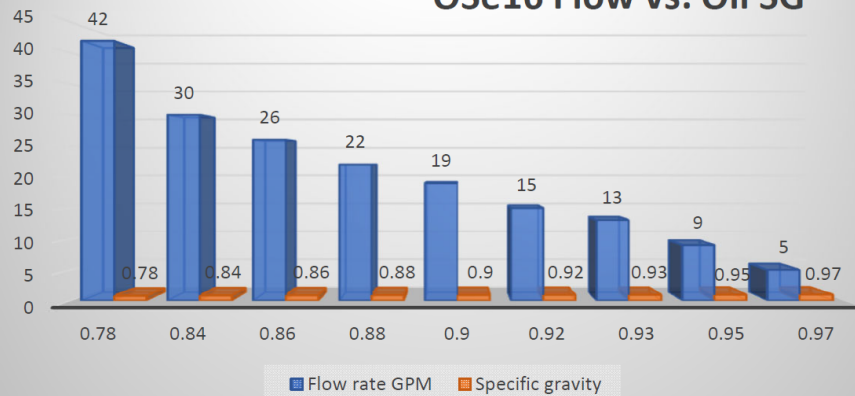

Model	Ose-80
Flow Rate:	240 GPM
Dimensions	82"L X 64"W X 77"H
Weight (empty)	2150 Lbs
Weight (oper.)	11000 Lbs
Inlet outlet Dia.	6" Flange
Sludge outlet	3"x 2
Tank MOC	304 SS

Oil Water Separator Rental Program

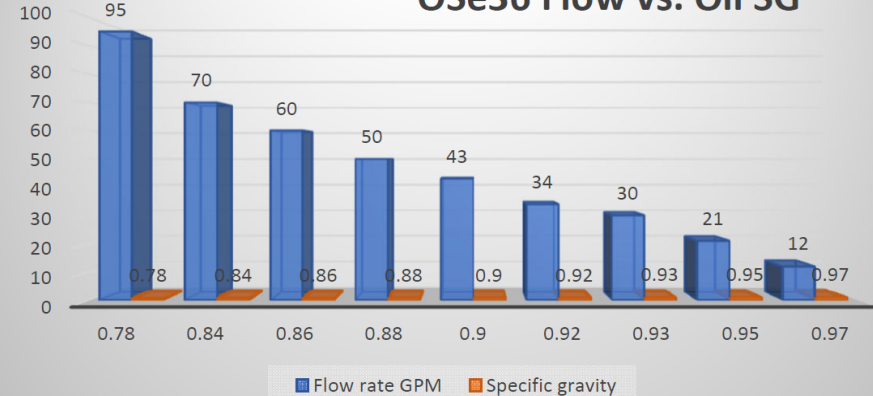

Rental Benefits

- Acquire the necessary equipment without making significant financial investments
- Pretest technology before committing resources
- Procure and meet compliance quickly
- Expand production immediately
- Like the equipment? Buyout options available

Oil Water Separator Rental Program

Renting, the simple alternative

OS Option

The Pan America Environmental OS series is a family of API421 based coated carbon steel, above grade coalescing oil water separator designs that can be applied to many applications where oils, fuels and many petroleum derived products are present.

Model	OS-192
Flow Rate:	576 GPM
Dimensions	174"L X 86"W X 85"H
Weight (empty)	6500 Lbs
Weight (oper.)	28672 Lbs
Inlet outlet Dia.	8" Flange
Sludge outlet	4"x 2
Tank MOC	A-36 Carbon Steel

Don't let oily wastewater become an environmental or regulatory headache - contact us today to rent the perfect oil water separator for your needs.
